

English Riviera Summer Open

The annual English Riviera Summer Open Exhibition returns for another year as the country approaches "business as usual" and Torbay ramps up for what is expected to be an exceptionally busy tourist season.

After a year of interruption, we've already kicked off 2021 with some wonderful exhibitions at the Artizan Collective Gallery that have captivated audiences, but the Summer Open is probably our most anticipated calendar offer.

Despite considerable upheaval, both our Summer and Winter Open exhibitions were able to run last year, and even though it was reduced to just 3 of its intended 8 week run, the English Riviera Winter Open secured record sales for our annual open series. And with the South West now in a considerably better position than it was at the end of 2020, our Summer Open promises to be a big event for the region.

This year the exhibition runs earlier to take maximum advantage of the peak tourist season, running throughout July and August for a full 8 weeks and will also host the first exhibition launch event we've been able to hold in over a year.

About Artizan Collective CIC

Artizan Collective CIC is a not for profit Social Enterprise dedicated to the advancement of arts and culture in Torbay, supporting wider engagement and greater accessibility to arts for our communities, through the provision of opportunities, resources, spaces and networks for creatives of all practices in a sustainable and resilient manner.

Currently hosted at Fleet Walk in the Artizan Collective Gallery, the Collective is providing a vibrant creative hub delivering opportunities for artists and audiences living and working in the Bay, as well as contributing to the English Riviera's cultural tourism offer. The venue currently runs a year-round visual arts programme which supports artists of all disciplines and experiences, including students and emerging artists, by creating affordable exhibition opportunities, awards and bursaries. In addition, a programme of community workshops, artist studios, and production spaces are in development in partnership with other independent creatives and local cultural organisations.

Through this activity we aim to improve the perception of Torbay's cultural offer, showcasing and connecting the creative stakeholders contributing to the sector and signposting audiences from this prominent location, to the areas hidden gems.

The organisation currently consists of two directors and a small group of key stakeholders and partners who support and deliver work, as well as an invested community of artists and creatives. Artizan Gallery supports the work of Artizan Collective CIC through the sharing of resources and promotional activities.

COVID-19

The COVID-19 global pandemic has required us to make significant changes in the way we work to ensure the safety of audiences and partners. Below we briefly outline our commitment to safety as well as the contingencies in place if for whatever reason events relating to the pandemic impact the exhibition.

Artizan Collective CIC and Artizan Gallery venues and employees undertake all the required steps to remain COVID-19 Secure in line with the government's standards for retail premises and cultural venues. As well as implementing provisions which enable us to work safely with the public in a retail setting, this also applies to the way we work with artists to securely display and showcase their work and deliver supporting services. If you have any specific queries about how this is achieved or need to make us aware of special arrangements you may require, please get in touch.

KEY CHANGES TO EXHIBITIONS

- COVID-19 Secure guidelines such as social distancing will apply to all our working practices and may impact delivery and collection procedures. As always, we will aim to be as flexible as possible to support the needs of artists, but some procedures will undoubtedly be more restrictive
- Retail premises are required to manage their audiences to allow sufficient distancing within venues and as such there will be requirements to limit the total number of visitors in the venue at one time. This may also require us to mark a prescribed route around the exhibition that audiences will be obliged to follow.

CONTINGENCY PLANNING

- We do not foresee an eventuality where we have to cancel the exhibition but if for whatever reason this is necessary, we will endeavour to carry over submissions to future opportunities.

SHIELDING

- Are you shielding? We want to do our best to support anyone to submit to the show so if you're shielding, get in touch to discuss options for how you can safely provide work for the show if selected.
